To whom may concern:

It was a pleasure to hire Aegis software for creating one of our projects. Experts from Aegis have worked on Microsoft .Net technology following some great frameworks and have put in lot of hard work and dedication that resulted in project success.

In the 2 month contract we signed with Aegis software, the team has proven its caliber and self-sufficiency in handling the project with ease .

We will certainly continue working with Aegis. I strongly recommend Aegis software for exclusive and trust-worthy .net development projects. I specially appreciate the best efforts put in by Aegis team.

Thanks Aegis for all the support and keep up the best work!

Madrid 12th of January of 2015.
