

RE: Aegis Software.

16th January 2017

To whom it may concern,

We engaged with Aegis in the summer of 2016 to work on development project for an app for Microsoft Dynamics CRM. This development was to take over work done by a different provider as well as extending the functionality considerably.

I was very happy with the engagement process that they showed, understanding quickly the requirements fully.

I was equally impressed with the development team's knowledge and ability to transform the requirements in to reality.

I have since then recommended Aegis to another Company we work with and would have no hesitation in recommending them to anybody else.

Kind Regards

Gary Donoghue
