To Whom it may Concern,

Quick turnaround, great quality, and low cost is always a winner, but flexibility is the glue that makes things stick. Aegis, Inc. has been a terrific resource for both my company and my clients. Everything we've worked on so far has pleased stake holders, and when requirements change (as they often do in any project), Aegis is able to keep up. I plan on sticking with Aegis, Inc. for future projects.

Regards,

A handwritten signature in black ink, appearing to read "Tim Hidalgo", is written over a faint, larger version of the same signature.

**Tim Hidalgo**
